FOURTEENTH AUSTRALIAN COAL PREPARATION CONFERENCE

“STORIES FROM THE COALFACE”

**Canberra, Australian Capital Territory
9-13 September, 2012**

“FINAL CALL FOR PAPERS”

The Conference Technical Committee invites authors to submit 300-500 word abstracts on any aspect of coal preparation and utilisation to:

Attention: The Editor
confedit@acps.com.au

The number of papers will be limited and selected on merit and for the balance of the program. Papers will only be considered on the basis that at least one author will be attending the conference to present the paper. Abstracts must be received by **19th July 2011**. If you have not received confirmation of receipt of your abstract within one week of submission, please re-send your abstract, attaching a copy of your original outgoing email.

In particular, papers are called for the areas of:

New Plants	Fine coal
Upgrades	Dense Medium
Clean Coal	Dewatering
Water in Mining	Improving plant efficiency
Materials Handling	New technologies/equipment
Coarse coal	Tailings handling and recovery
Small coal	Control/Instrumentation

Papers from operating plants, discussing plant issues, are especially encouraged.

Two classes of submission exist; full paper and MINESITE paper. For MINESITE papers no formal paper is required to be submitted, although full paper submission is encouraged. MINESITE papers will be presented in a full conference session – exactly the same as a formal paper. If no full paper is submitted, the abstract will be published in the conference proceedings.

MINESITE papers must be presented by an employee of a coal mining company.

By submitting an Abstract for consideration, the author(s) expressly agree to conform with the due dates for submissions. Indicative dates are as follows, subject to confirmation by the Editor:

<i>Full paper due (MS Word® format):</i>	<i>9th January 2012</i>
<i>Comments provided from reviewers:</i>	<i>19th February 2012</i>
<i>Revised (final) paper due:</i>	<i>9th May 2012</i>
<i>Conference presentation due (MS Powerpoint® format):</i>	<i>9th August 2012</i>

Copyright

By submitting an Abstract, the author(s) declare that they hold copyright of the referred work, and that if the paper is accepted for publication, the authors hereby license that copyright to the Australian Coal Preparation Society solely for reproduction in the conference proceedings. The author(s) retain all other rights to the work.

The authors certify, to the best of their knowledge and belief, that:

- publication of the work will not breach any previous copyright obligations, and that the work of others has been appropriately acknowledged;
- the information contained is accurate and correct;
- the topics contained within the work are not, and are not likely to be, the subject of a dispute that may have commercial or legal consequences;
- they will not publish the same paper in another publication or forum without the permission of the Society.

Presenter discount

Prospective authors and presenters are advised that the Society has decided to allow the presenter of each paper a 50% discount on the Conference registration fees. The discount will be refunded following the conference.
